SCILAB Competition Purposes

The competition is sponsored for Chinese students and technicians to improve the ability to study and manage SCILAB, and it can also provide an opportunity and a stage to express your own talent in computer programming. What's more, it is a competition that exhibits the demeanor of college students in science and technology and enhance the cooperation and intercommunication of own college student with one another. The competition advocates the time spirit of "freedom, share and creation". This competition campaign is conducted by the technicians from France and China, and the main target of the competition is to improve the communication and cooperation between two countries.

2009 SCILAB - OW2 JOINT OPEN SOURCE SOFTWARE CONTEST

Sept.18-20, 2009, Guiyang, China

SCILAB Contest Instruction

(1) Participants can select any subject they are interested in. The software should include the demonstration of the creation, examples, and online help files. The language online help files may be English.

(2) Demonstration of the procedure should program by Scilab, but you may also include other languages, such as C, Fortran, C++, Java.

(3) Toolboxes should be available in Scilab 4.1.2 environment or higher, and you can choose any version of binary system support platform for your toolbox.

SCILAB Award Information

First prize award one of the winners and one of their professors visiting Scilab team for one week; the student visiting LIAMA for two months.

Second prize: award 10*1,000 Yuan.

Improved prize: award 10*500 Yuan.

OW2 Contest Instruction

(1) Participants can select a topic in the list provided on the OW2 Contest webpage.

(2) After registration, participants are encouraged to get in touch with topic contact, and exchange information on the corresponding project mailing list.

(3) The software will be developed using the Trustie collaborative infrastructure. It should include appropriate documentation for installing and running the software, as well as examples and tests. The language for code comments and documentation should be English.

OW2 Award Information

First prize award one of the winners and one of their professors visiting OW2 team for one week.

Second prize: award 5*internship.

Improved prize: award 10*500 Yuan.

Important Dates

Deadline of registration: May. 1, 2009

Deadline of work submission:

Aug. 25, 2009

Deadline of workshop submission:

Ref. <http://www.ossweb.org>

Awards Ceremony: Sept.18-20, 2009

Important Venue

2009 Scilab Contest will be held in Tianjiabing Building multifunctional conference centre of Guizhou Normal University, Guiyang, China.
